

Package 'PWMErich.Mmusculus.background'

October 4, 2014

Maintainer Robert Stojnic <robert.stojnic@gmail.com>

License GPL-3

Title M. musculus background for PWMErich

Type Package

LazyLoad yes

Author Robert Stojnic

Description PWMErich pre-compiled background objects for M.musculus (mouse) and MotifDb M. musculus motifs.

Version 1.0.0

biocViews AnnotationData, Organism, Mus_musculus

Date 2013-09-12

Depends R (>= 2.10), methods, PWMErich

PWMErich.Mmusculus.background-package

PWMErich.Mmusculus.background package overview

Description

This package provides a set of pre-compiled genomic background files for the PWMErich package and *M. musculus* (mouse). The backgrounds were pre-compiled using unique 2kb promoters in mouse.

- MotifDb.Mmus.PFM - a list of position frequency matrices (PFMs) from MotifDb
- MotifDb.Mmus - the corresponding PWMs generated by using the background frequencies of A,C,G,T in a set of 2kb mouse (mm9) promoters.
- PWMLogn.mm9.MotifDb.Mmus - pre-compiled threshold-free lognormal background for MotifDb mouse PWMs. The lognormal distribution is fitted to 500bp chunks of 2kb mouse (mm9) promoters.
- PWMcutoff4.mm9.MotifDb.Mmus, PWMcutoff5.mm9.MotifDb.Mmus - pre-compiled Z-score background with cutoff of 4 and 5 (base e) for MotifDb mouse PWMs. The number of hits is counted in 2kb mouse (mm9) promoters.
- PWMPvaluecutoff1e2.mm9.MotifDb.Mmus, PPWMPvaluecutoff1e3.mm9.MotifDb.Mmus, PPWMPvaluecutoff1e4.mm9.MotifDb.Mmus - pre-compiled Z-score background with P-value cutoff of 0.01, 0.001, and 0.0001 for MotifDb mouse PWMs. The number of hits with smaller P-value than cutoff is counted in 2kb mouse (mm9) promoters.

Usage

```
data(MotifDb.Mmus.PFM)
data(MotifDb.Mmus)
data(PWMLogn.mm9.MotifDb.Mmus)
data(PWMcutoff4.mm9.MotifDb.Mmus)
data(PWMcutoff5.mm9.MotifDb.Mmus)
data(PWMPvaluecutoff1e2.mm9.MotifDb.Mmus)
data(PWMPvaluecutoff1e3.mm9.MotifDb.Mmus)
data(PWMPvaluecutoff1e4.mm9.MotifDb.Mmus)
```

Details

All of these objects were created with the appropriate functions available in the PWMErich package (see Section 'See also'). We recommend using these functions to generate backgrounds for a custom set of background sequences and/or DNA motifs.
