SpikeIn	<i>Affymetrix SpikeIn Experiment Data</i>
---------	---

Description

Probe-level data for data from the HGU95 and HGU133 SpikeIn experiments.

Usage

```
data(SpikeIn95)
data(SpikeIn133)
```

Format

Both `SpikeIn95` and `SpikeIn133` are instances of the `AffyBatch` containing the `PM` and `MM` intensities for a genes spiked in at different concentrations. The spike-in concentrations used are provided as part of the phenotypic data (e.g. `pData`).
