

# Package ‘ITALICSData’

October 31, 2024

**Version** 2.44.0  
**Date** 2008-05-01  
**Title** ITALICSData  
**Depends** R (>= 2.0.0)  
**Author** Guillem Rigail  
**Maintainer** Guillem Rigail <italics@curie.fr>  
**Description** Data needed to use the ITALICS package  
**License** GPL  
**URL** <http://bioinfo.curie.fr>  
**biocViews** ExperimentData, HapMap  
**git\_url** <https://git.bioconductor.org/packages/ITALICSData>  
**git\_branch** RELEASE\_3\_20  
**git\_last\_commit** 425b0e2  
**git\_last\_commit\_date** 2024-10-29  
**Repository** Bioconductor 3.20  
**Date/Publication** 2024-10-31

## Contents

Hind.QuartetEffect . . . . .	1
Nsp.QuartetEffect . . . . .	2
quartet . . . . .	2
snpInfo . . . . .	2
Sty.QuartetEffect . . . . .	2
Xba.QuartetEffect . . . . .	2
<b>Index</b>	<b>3</b>

---

Hind.QuartetEffect	<i>Hind.QuartetEffect</i>
--------------------	---------------------------

---

## Description

It contains computed quartet effect for Hind array. Those were computed on some normal samples of the hapmap dataset.

---

Nsp.QuartetEffect	<i>Nsp.QuartetEffect</i>
-------------------	--------------------------

---

**Description**

It contains computed quartet effect for Nsp array. Those were computed on some normal samples of the hapmap dataset.

---

quartet	<i>Quartet Info example for the vignette</i>
---------	--

---

**Description**

An example for the vignette

**Usage**

```
data(quartetInfo)
```

---

snpInfo	<i>snp Info example for the vignette</i>
---------	--

---

**Description**

An example for the vignette

**Usage**

```
data(snpInfo)
```

---

Sty.QuartetEffect	<i>Sty.QuartetEffect</i>
-------------------	--------------------------

---

**Description**

It contains computed quartet effect for Sty array. Those were computed on some normal samples of the hapmap dataset.

---

Xba.QuartetEffect	<i>Xba.QuartetEffect</i>
-------------------	--------------------------

---

**Description**

It contains computed quartet effect for Xba array. Those were computed on some normal samples of the hapmap dataset.
